---

## PROFESSIONAL EXPERIENCE

### Software Developer

**Eighteen Pixels India Pvt Ltd** | Mar 2023 – Mar 2025

- Developed and maintained **Laravel-based backend systems** for CRM, HRMS, and SaaS platforms
- Integrated **third-party services** including Google Maps, payment gateways, SMS, WhatsApp, and recognition-based attendance systems
- Implemented **role-based access control (Spatie Permissions)** and **real-time features using Socket.io**
- Optimized database queries, collaborated with frontend teams, and supported **deployment & maintenance of live applications**

### Junior Software Developer

**Hipster Pvt Ltd** | Aug 2021 – Feb 2023

- Developed CRUD modules and backend features using Laravel and jQuery AJAX
  - Built secure **REST APIs** for mobile Application
- 

## KEY PROJECTS

### Yalla Drive – Chauffeur Ride Booking Platform (Dubai)

**Tech:** Laravel, MySQL, Google Maps

- Worked on backend modules for **ride management, chauffeurs, and dispatchers**
- Implemented **live location tracking** using Google Maps, geocoding and real-time ride events using Socket.io

### Human Resource Management System (HRMS)

**Tech:** Laravel, MySQL

- Managed complete backend; implemented **CRON jobs** for payroll, attendance, and reports
  - Built modules for employees, assets, expenses, and HR operations
- 

### Catering Management System

**Tech:** Laravel, MySQL, jQuery, AJAX

- Developed full backend for event management, material calculation, billing
  - Implemented **material calculation logic**, cost estimation, and payment tracking
  - Used **jQuery AJAX** for dynamic data handling and smooth user interactions
- 

### HICA (Dubai – Education Platform)

**Tech:** Laravel, Google Maps, SERP API

- Developed Seeker and Provider dashboards
  - Integrated Google Login, Custom Login and Payment functionality using Stripe
  - Developed Frontend for the visitors to explore about the project
-

## **YODH (YO. DH) – Digital Health Platform**

**Tech:** Laravel, Socket.io

- Developed **Admin dashboard modules**
  - Built API backend for web and mobile apps
  - Implemented **real-time chat functionality** using Socket.io
- 

## **National Post Graduation (NPG)**

**Tech:** Laravel, MySQL, SMS APIs

- Implemented **automated attendance tracking** using Card ID devices
  - Integrated **SMS and email notifications** for attendance updates
  - Built academic management modules (classes, sessions, library)
- 

## **Real Estate SaaS Platform**

**Tech:** Node.js, Express.js, MySQL

- Built backend APIs for React frontend
  - Managed property listings, payments, and loan workflows
- 

## **EDUCATION**

### **B. Tech – Computer Science**

Azad Institute of Engineering and Technology | 2020

**CGPA:** 8.28
